Step 3: Course Registration

- If the student is considered eligible and has been admitted to the college, then:
- The college will discuss course options with the student, based on assessment scores, prerequisites, and other requirements

What courses can a student take?

CCP courses can satisfy high school graduation requirements

- School counselors can help students understand graduation requirements and CCP course substitutions
- Some high schools have more requirements for graduation than the state minimum
- Students must work with school counselors to ensure they are meeting any mandatory testing or other high school graduation requirements

Course Eligibility Rules

Students must complete their first 15 credits in Level I courses, which include:

- Transferable courses
- Courses in IT, Computer Science, Anatomy & Physiology, foreign language

- The maximum number of credits allowable for a student while participating in the program is 120

How many classes can students take?

- ☐ 2 College Credit Hours = .666 High School Credits
- ☐ 1 College Credit Hour = .333 High School Credits

How many classes can students take?

If a student enrolls in more than 30 credits for the year, the school will discuss with the student whether to:

- Drop the course (prior to the no-fault withdrawal date) or
- Pay for the entire course (including tuition, fees, books) at the college's standard rates (Option A)

Additional Considerations

Grades

- College Credit Plus grades earned in the college course is the same grade that will be on the high school transcript
- CCP course grades will be factored into the high school and college GPAs

Grade Weighting

High schools weight all advanced standing courses in a subject area consistently(CCP, AP, IB, Honors)
